How to Create PhotoSnack Album & Slideshow

Photosnack is a free app available on the web. It does not require any downloads to the users computer . Uploaded photos will be stored on the Cloud and accessible from any web browser. Users can upload photos to create a virtual photo album, and then obtain an HTML embed code that can be pasted into Real-Time below the listing description to incorporate the photo slideshow.

1 – Create a Free Account at <u>http://PhotoSnack.com</u> or log-in if you already have an account.

2 – Log-in to http://PhotoSnack.com & select Create New Slideshow

- 3 Click UPLOAD and Select Multi-Photos or Drop & Drag files on Browser Window.
- 4 After uploaded click NEXT to continue (photos will appear at bottom of UPLOAD page)

5 – Click FINISH to Continue or Go to Advanced Settings for additional options.

6 – On Next Screen scroll down a little and click on EMBED icon to get HTML to copy and paste.

7 – Copy FREE Embed Code

8 – Paste Code into Advertising Copy (Listing Description) field in Real-Time.

SEE NEXT PAGE FOR INSTRUCTIONS TO INCLUDE A DESCRIPTION ON INDIVIDUAL PHOTOS

Adding Descriptions to Individual Photos in Your Album

After you have created your album you can add descriptive text which will display on each photo in the album. To do this open PhotoSnack, Select My PhotoSnack, Locate the Album and Click EDIT. See screenshot.
