PERMIT TO CONSTRUCT A WELL

ISSUANCE OF THIS PERMIT DOES NOT CONFER A WATER RIGHT  
CONDITIONS OF APPROVAL

- 1) This well shall be used in such a way as to cause no material injury to existing water rights. The issuance of the permit does not assure the applicant that no injury will occur to another vested water right or preclude another owner of a vested water right from seeking relief in a civil court action.
- 2) The construction of this well shall be in compliance with the Water Well Construction Rules 2 CCR 402-2, unless approval of a variance has been granted by the State Board of Examiners of Water Well Construction and Pump Installation Contractors in accordance with Rule 18.
- 3) Approved pursuant to CRS 37-90-137(2) on the condition that the well be operated in accordance with the Augmentation Plan approved by the State Engineer on August 14, 1972, for the Slater Creek Ranch and Saddle Mountain Ranch Properties.
- 4) Approved as the only well on a residential site of 2.5 acres described as lot 416, filing 1, Saddle Mountain Heights Subdivision, Park County.
- 5) The use of ground water from this well is limited to ordinary household purposes inside one single family dwelling and shall not be used outside the house for any purpose.
- 6) The maximum pumping rate shall not exceed 15 GPM.
- 7) The return flow from the use of the well must be through an individual waste water disposal system of the non-evaporative type where the water is returned to the same stream system in which the well is located.
- 8) A totalizing flow meter must be installed on this well and maintained in good working order. Permanent records of all diversions must be maintained by the well owner (recorded at least annually) and submitted to the Division Engineer upon request.
- 9) This well shall be constructed not more than 200 feet from the location specified on this permit.

## WELL PERMIT EXTENSION INFORMATION REQUEST

Please complete and/or amend as necessary and return to this office as soon as possible.

\_\_\_\_\_ Enter or verify the permit number. Our records show permit number \_\_\_\_\_ at this location.

\_\_\_\_\_ The State Engineer may, for good cause shown, extend the permit for one year. Please provide an explanation of why the well will not be constructed prior to the expiration date of the permit and approximately when it will be constructed.

\_\_\_\_\_ The State Engineer may, for good cause shown, extend the permit for one year. Please provide an explanation of why the water from the well will not be used beneficially prior to the expiration of the permit.

X  
\_\_\_\_\_ Statutes require that a \$60.00 filing fee accompany the request for an extension of time for the permit. Please submit the fee, payable to the State Engineer with your extension request.

\_\_\_\_\_ In order to change ownership and/or address information the enclosed change ownership/address form (GWS-11) must be completed and submitted to this office. There is no fee for processing this form.

20

Due to weather and the drilling company's scheduling, we have not been able to complete our well. So we would like to get an extension on the permit which expires June 25. The well company told us that if we sent a letter before it expires we wouldn't have to pay for a one year extension.

## NOTICE

Your request for an extension of time to complete the well and put water to beneficial use for well permit number 50120-F has been received and reviewed.

You are hereby given notice that the State Engineer has approved an extension of **one year** to JUNE 25, 2000. A copy of the amended well permit is enclosed. Please be advised that pursuant to Colorado Revised Statute 37-90-137(3)(a)(I), **additional extensions cannot be approved.**

When water from the well has been put to beneficial use for the purpose(s) described on the permit, a Statement of Beneficial Use must be completed and submitted to the Division of Water of Resources. In order for the permit to remain valid, water from the well must be used and this office must receive the Statement of Beneficial Use by the expiration date of the permit.

It is the well owner's responsibility to complete and submit the Statement of Beneficial Use. A Statement of Beneficial Use form was provided to the applicant when the well permit was issued. Additional forms are available from the Colorado Division of Water Resources offices.

Well Construction Contractors are required to submit their respective reports affirming construction of the well and the installation of pumping equipment. Well owners who construct their own well and/or install pumping equipment must submit these reports. Forms for reporting construction and pump installation are available from the Division of Water Resources offices.

If you have any questions, please contact the Groundwater Information Desk of this office.

PRUITT MARK A  
BOX 34

FLORISSANT CO 80816

RE: Well Permit Number 50120 F

Located in the SE 1/4, of the NE 1/4, Section 11 Township 14 S, Range 72 W, S P.M.

SADDLE MOUNTAIN HEIGHTS, Lot 416, Block , Filing 1

### NOTICE

This permit to construct a well and divert water for beneficial use was issued on 6/25/98. The expiration date of the permit is 6/25/00. In order for the permit to remain valid, certain actions must be taken by the well owner and documentation must be received prior to the expiration date of the permit. As of this date, a completed Statement of Beneficial Use form or a request for extension of the expiration date has not been received by the Division of Water Resources.

The permit was approved under Section 37-90-137(2), Colorado Revised Statutes. Under the statute, the well must be constructed, pumping equipment installed and water diverted for beneficial use prior to the expiration date of the permit. In order to affirm that the well was used prior to the expiration date, the well owner must complete and submit a Statement of Beneficial Use, Form No. GWS-10. The completed form must be received by the Division of Water Resources prior to the permit's expiration date. A blank Statement of Beneficial Use form was provided with the copies of your original permit.

If the well is not in use, the well owner may request, in writing, a one-time, one year extension of the expiration date. The request must be received with a \$60.00 filing fee prior to the expiration date and must provide a reason or reasons for not having the well in use and why the expiration date should be extended for an additional year.

If the well has been constructed, pumping equipment installed, and water will not be used until after the expiration date of the permit, the permit expires and will be of no force or effect. It will be necessary for you to obtain a new well permit by submitting a completed application for an existing well along with a \$60.00 filing fee.

**If the expiration date has already been extended for one year, the statute does not allow more than one extension of time. If the well is not in use and the Statement of Beneficial Use is not received by the expiration date, the permit expires and is of no force or effect.**

If the well has not been constructed, and you do not wish to pursue construction of a well, please advise us in writing in order that we may formally expire the permit without requiring additional notification.

If you have any questions, or need additional forms, please contact Mr. Richard Bell of this office at (303) 866-3581. Thank-you for your immediate attention.
