Cabin with lake for sale in SW MS. Looking for a place to get away and have a great time year around? This is it. This 36 acre with cabin is located just outside of Centreville down its own private dead end road. The cabin is off grid and ran by solar power, gas and generator. There are 2 bedrooms, 1 bath and a loft. The cabin sits on a 4 acre stocked lake loaded with fish. There is also great deer and turkey hunting on the property. There is a great system of trails that leads you all through the hardwood and pine mixed timber. The western border is beautiful Stafford Creek. The owner has lots of quality deer on camera the last few years and this area is known for great genetics. The fishing in the lake is unreal just look at the pictures. If you are looking for a great place to get away from town with year around fun you need to check this place out. With everything going on in the world today an off-grid cabin in the woods sounds like the place to be. Call today to set up your private showing.
