

The following numbers are an estimate only. The estimate is based upon 150 tenth-acre plots performed on the estimated 125+ acres of woodland containing marketable sized, standing timber. |

The entire cruise is based upon Form Class 78, Doyle Rule and did not take into account anything smaller than 14 inch DBH.

Species	Bd ft per acre	Total Bd ft (125 acres)	Per Tree Average
White Oak	1264	158,000	169
Poplar	876	109,500	239
Red Oak	667	83,375	189
Hickory	644	80,500	132
Sycamore	400	50,000	315
Beech	344	43,000	147
Water Maple	271	33,875	127
Sugar Maple	183	22,875	153
Sweet Gum	126	15,750	236
Ash	120	15,000	129
Hemlock	110	13,750	237
Walnut	100	12,500	168
Chinkapin Oak	98	12,250	294
Cherry	16	2,000	120
Totals	5,219	652,375	N/A
