Older super nice 3 bed/3 bath home on 85 acres just north of Liberty, MS. This tract is 85 acres almost completely covered in timber with a nice home in the center of the tract. A long winding drive through towering pines lead you right to the house. A covered pool was added for those sweltering south Mississippi summers. This property although only a mile from town has some fantastic hunting opportunities. It's almost like a refuge. This would be a great tract for a weekend getaway or even to make a homestead.
