

Turn of the Century 1805 sqft Victorian style home on a corner lot in McComb, MS. This home features beautiful wood floors, tall ceilings and wrap around porch. The kitchen, a bedroom, living room and bathroom are completely updated. The dining room and another bedroom are almost complete but need some painting and trim work. One bedroom, the hallway and bathroom need updating. The home has updated wiring, plumbing, central heat/air and the roof looks to be in very good shape. It would not take much to finish this home out and have a fully updated home. This historic home is situated on a large corner lot and has a nice storage building and a fenced in yard.
