ISSUANCE OF THIS PERMIT DOES NOT CONFER A WATER RIGHT
CONDITIONS OF APPROVAL

- 1) This well shall be used in such a way as to cause no material injury to existing water rights. The issuance of this permit does not ensure that no injury will occur to another vested water right or preclude another owner of a vested water right from seeking relief in a civil court action.
- 2) The construction of this well shall be in compliance with the Water Well Construction Rules 2 CCR 402-2, unless approval of a variance has been granted by the State Board of Examiners of Water Well Construction and Pump Installation Contractors in accordance with Rule 18.
- 3) Approved pursuant to CRS 37-90-137(2) on the condition that this well is operated in accordance with the Saddle Mountain Mutual Water Company Augmentation Plan approved by the Division 2 Water Court in Case No. 03CW99. If this well is not operated in accordance with the terms of said decree, it will be subject to administration including orders to cease diverting water.
- 4) Approved for the use of an existing well located on a residential site of 4.35 acre(s) described as lot 681, filing 3, Saddle Mountain Heights Subdivision, Park County. Permit No. 68589-F (expired) was previously issued for this parcel.
- 5) The use of ground water from this well is limited to ordinary household purposes inside one single family dwelling and the watering of three (3) horses (or equivalent livestock). Livestock watering is allowed pursuant to the decree in Case No. 03CW99 and the 1.5 additional shares of SMMWC purchased by the well owner for livestock watering.
- 6) The pumping rate of this well shall not exceed 15 GPM.
- 7) The combined annual amount of ground water to be appropriated by this well and all other wells operating pursuant to case no. 03CW99 shall not exceed 32.1 acre-feet (3.57 acre-feet/year consumptive use, being 90% of 3.97 acre-feet/year consumptive use available), or as adjusted by the water court pursuant to case no. 03CW99 and the court's retained jurisdiction.
- 8) A totalizing flow meter must be installed on this well and maintained in good working order. Permanent records of all diversions must be maintained by the well owner (recorded at least annually) and submitted to the Division Engineer upon request.
- 9) The return flow from the use of this well must be through an individual waste water disposal system of the non-evaporative type where the water is returned to the same stream system in which the well is located.
- 10) This well shall be constructed not more than 200 feet from the location specified on this permit.

NOTE: This permit will expire on the expiration date unless a pump is installed by that date. A Pump Installation and Test Report (GWS-32) must be submitted to the Division of Water Resources to verify that the pump has been installed. A one-time extension of the expiration date may be available. Contact the DWR for additional information or refer to the extension request form (GWS-64) available at: <http://www.water.state.co.us>

Re: Modified Well Permit No. 77112-F, Lot 681, Filing 3, Saddle Mountain Heights Subdivision

Dear Mr. Blake:

Pursuant to the Order entered in State Engineer Hearing Case No. 12-SE-17, your well permit has been modified. This change reflects that operation of your well is subject to the terms and conditions of the augmentation plan decreed in Division 2 Water Court Case No. 2003CW99 for the Saddle Mountain Mutual Water Company. A copy of your modified well permit is enclosed. This change was further described in previous letters from this office to you dated July 17, 2012 and December 28, 2012, and in accordance with the March 28, 2013 Order in Hearing Case No. 12-SE-17.

Your modified well permit has a new permit number (previous permit issued under no. 68589-F on August 26, 2009 has expired). The new well permit (no. 77112-F) will expire in one year unless a pump is installed in the well. See the note at the end of the permit conditions for additional information.

If you have any questions regarding your modified well permit, please contact Melissa Peterson, Water Resource Engineer, at (303) 866-3581, Ext. 8208, or at Melissa.A.Peterson@state.co.us

Sincerely,

Jeff Deatherage, P.E.
Chief of Water Supply

cc: Bill Richie, Augmentation Plan Coordinator, Water Division 2
Counsel for Saddle Mountain Mutual Water Company

PERMIT TO USE AN EXISTING WELL

ISSUANCE OF THIS PERMIT DOES NOT CONFER A WATER RIGHT

CONDITIONS OF APPROVAL

- 1) This well shall be used in such a way as to cause no material injury to existing water rights. The issuance of this permit does not ensure that no injury will occur to another vested water right or preclude another owner of a vested water right from seeking relief in a civil court action.
- 2) The construction of this well shall be in compliance with the Water Well Construction Rules 2 CCR 402-2, unless approval of a variance has been granted by the State Board of Examiners of Water Well Construction and Pump Installation Contractors in accordance with Rule 18.
- 3) Approved pursuant to CRS 37-90-137(2) on the condition that this well is operated in accordance with the Saddle Mountain Mutual Water Company Augmentation Plan approved by the Division 2 Water Court in Case No. 03CW99. If this well is not operated in accordance with the terms of said decree, it will be subject to administration including orders to cease diverting water.
- 4) Approved for the use of an existing well located on a residential site of 4.35 acre(s) described as lot 681, filing 3, Saddle Mountain Heights Subdivision, Park County. Permit No. 68589-F (expired) was previously issued for this parcel.
- 5) The use of ground water from this well is limited to ordinary household purposes inside one single family dwelling and the watering of three (3) horses (or equivalent livestock). Livestock watering is allowed pursuant to the decree in Case No. 03CW99 and the 1.5 additional shares of SMMWC purchased by the well owner for livestock watering.
- 6) The pumping rate of this well shall not exceed 15 GPM.
- 7) The combined annual amount of ground water to be appropriated by this well and all other wells operating pursuant to case no. 03CW99 shall not exceed 32.1 acre-feet (3.57 acre-feet/year consumptive use, being 90% of 3.97 acre-feet/year consumptive use available), or as adjusted by the water court pursuant to case no. 03CW99 and the court's retained jurisdiction.
- 8) A totalizing flow meter must be installed on this well and maintained in good working order. Permanent records of all diversions must be maintained by the well owner (recorded at least annually) and submitted to the Division Engineer upon request.
- 9) The return flow from the use of this well must be through an individual waste water disposal system of the non-evaporative type where the water is returned to the same stream system in which the well is located.
- 10) This well shall be constructed not more than 200 feet from the location specified on this permit.

NOTE: This permit will expire on the expiration date unless a pump is installed by that date. A Pump Installation and Test Report (GWS-32) must be submitted to the Division of Water Resources to verify that the pump has been installed. A one-time extension of the expiration date may be available. Contact the DWR for additional information or refer to the extension request form (GWS-64) available at: <http://www.water.state.co.us>
