RE: Pasquotank Property- Pin No. 798102795967

Dear Mr. Williamson,

This letter is with reference to a site evaluation conducted on November 8, 2022, for the aforementioned parcel located at 772 Okisko Road, Pasquotank County, North Carolina. The site was reviewed for the presence of wetlands subject to Section 404 of the Clean Water Act. Atlantic Environmental Consultants (AEC) evaluated this parcel utilizing the 1987 U.S. Army Corps of Engineer's Wetland Delineation Manual.

Atlantic Environmental Consultants determined there are no hydric soils, wetland vegetation, or hydrology within 12 inches of the surface, therefore this property does not have any conditions within the property boundaries that meet the criteria for a US Army Corp of Engineers jurisdictional Section "404" wetlands.

If AEC can be of further assistance or you need additional information please do not hesitate to contact me at 252-599-2603.

Sincerely,

Doug Dorman
