Subject: Water Meter Request

We're happy to let you know that your request for a single water meter at your property has been approved. Please be aware that a road bore will be necessary for this installation, with the starting cost being $4,000.00.

To move forward with the installation, we require a completed service agreement form, a signed easement, and a payment totaling $9,180.00 (which includes the $5,180.00 installation fee plus the base $4,000.00 for the road bore). We accept payment via cash, check, or money order.

Please submit the required documents and payment as soon as possible. This approval is valid for 10 business days from today, May 15, 2025, due to potential changes in availability.

Sincerely,

Coryell City Water
