The above estimate is for the probable costs for drilling a well. It does not represent an actual job quote, as the actual drilled depth and casing type will be determined at the job location. Although the likelihood of finding water does exist, there are no guarantees and it is possible the well drilled will not produce water. The estimated date of completion for this project will be coordinated verbally based on the drilling schedule upon acceptance of this project.

These prices are valid for 30 days from the date indicated above. Due to market uncertainties and material availability, prices are subject to change prior to drilling. Full payment is due at completion of project. There is a 3% processing fee for all credit card transactions. **Any work performed to the well by an unlicensed Arizona contractor, null and voids all warranties.**
