

- 
- An aerial photograph of a two-story lakefront house. The house has a light-colored exterior and a large, multi-level deck with railings. A dock extends into the water in front of the house, with a small boat moored nearby. The surrounding area includes other houses and lush green trees. The water is calm, reflecting the sky.
- Love to sit in front of the bay window on the lower level; you are right on the water!
 - Expansive lake views from all lakeside rooms.
 - Top deck is perfect for sunsets and fireworks.
 - Lower deck is great for all day shaded enjoyment and relaxation.
 - Enjoy the moonlight shimmering on the water from either deck or bay window seats.
 - Unique home; one of one house literally on the water.
 - Double lot with 79' of waterfront.
 - Shortest available trip between house and water/boat.
 - Awesome neighbors!
 - Close proximity to restaurants and shops!
