

This is indeed good news. Below please find the propane and electrical stats you requested. Please let us know if you have any questions.

PROPANE

We use about 500 gallons per year, half the capacity of our 1000 gallon underground tank. We use Global Propane, which has consistently the lowest price, about \$2.50 per gallon, and buy in the summer when the price is lowest.

ELECTRIC

The average cost from May 2023 to May 2024 is \$197 per month. Below see a more detailed analysis.
