SouthernStatesRealty.com

**Southern
States Realty**

50+/- acres for sale in Jackson Parish with homesite potential. This 50-acre property is located in the country with hardly any traffic nearby. There is a mix of hardwoods, pine, new growth, and a pipeline running through the property for planting food plots. There are deer, turkey, squirrel, and other small game hunting opportunities on this tract. This is a great private tract of land that would be set up for a nice home or camp where you could hunt off your back porch. Give me a call today to schedule a showing.
