Wildlife Management Plan 2021

Part IV. Qualifying Wildlife Management Activities

Management Goals:

- We plan to enhance, manage and maintain wildlife population and wildlife environment of the property.

Management Objectives:

- Control growth of cedar trees and prickly pear cactus
- Support and maintain environment of bird species
- Provide habitat and supplemental shelter for birds and animals

Habitat Control

- Maintenance by clearing brush to control new growth of cedar trees
- Mow the grass fields to promote healthy new grass
- Remove invasive weeds and grasses from grass field and creek area
- Keep the creek clean from flood debris and tree branches

Supplemental Shelter

- Maintain brush wildlife teepee shelters (see attached pictures)
- Maintain bird boxes

Census Count and Monitoring

- Participate in Bird Breeding Survey performed by Plateau Land & Wildlife Management (2020 Breeding Bird Survey attached). Property is Station 6.

Supplemental Shelter
