-----------------------------------	------------	---	--	--	--	-----------	----

Sampling unit conforms to State of Michigan standards for a single sample.

The analyses performed by this laboratory were conducted using methods approved by the U.S. Environmental Protection Agency in accordance with the Safe Drinking Water Act, 40 CFR parts 141-143, and other regulatory agencies as appropriate. Your local health department has detailed information about the quality of drinking water in your area.

If you have concerns about the health risks related to the test results of your sample, please contact the local environmental health agency of the county wherein the specimen originated.

If you require assistance in interpreting this report please contact the environmental health division of the county health department where the property from which the sample was taken is located.
