

Addendum Z (Broker Disclosure and Information)

- 1) While the property has been surveyed, the blue lines marking the perceived boundaries in some of the photographs are very approximate. Buyers should do the own due diligence to identify any exact locations of boundary lines. (The blue lines are for illustration purposes only.)
- 2) The cabins on the property are seasonal cabins and not considered permanent residences. The covenants state "Any primary residential structures must have a minimum 500 feet of living space." All measurements of the seasonal cabins are approximate.
- 3) The sellers believe electric is ran along Cty Rd SS. They aren't sure which side of the road. Buyers should do their due diligence.
