Here are the Certificates of Compliance for the dwelling septic system and the holding tank for the shed. The dwellings COC is valid until 11/16/2027 and the holding tank is valid until 6/10/2029.

Thank you,

Subject: Septic records from 2022 of a new system put in

Hello! I am looking at listing a property for sale in dodge county. The septic was installed in 2022 by Ponds and More. Can I get the records for it for the next owner? And does it need to be inspected again before sale?

The address is

[70082 270th Ave, Kasson MN](#)

Thank you!
