THIS ELECTION must be made by all current producers on the farm, and must occur by the end of the election period announced by FSA to be effective for this farm beginning with the 2014 crop year, under the terms of 7 CFR Part 1412. If an ARC or PLC election is not made, the election shall default to PLC for all covered commodities on the farm, starting with the 2015 crop year, and the farm is not eligible for any 2014 ARC or PLC payments. All current producers on the farm must sign this election, and by doing so, unanimously agree and acknowledge that: (1) this election is irrevocable for the covered commodities and the farm, or any resulting farm(s) of a reconstitution; (2) this farm may not be combined with any other farm that has base acres and does not have the same program election applicable for each and all covered commodities on all farms intended to be combined; (3) even though they may have made an election, they must annually enroll the farm in the ARC or PLC program in order to receive ARC or PLC benefits for that crop year; (4) they must comply with the regulations at 7 CFR Part 1412; and (5) that ARC or PLC benefits are subject to change based upon changes to law. In addition, by signing this form, all current producers on the farm certify as to the accuracy of the information set out on this form. FSA's acceptance of this signed form and use of the form does not equate to FSA's approval of the election. If FSA later determines this election was invalid under 7 CFR Part 1412, the elections on this form will not apply to the farm. Annual enrollment in the ARC or PLC program is a separate action from this election and must be performed each crop year.

THE YIELD WORKSHEET is used to obtain yield information that may be used by a current owner who may choose to update the covered commodity yield as permitted under Section 1113 of Public Law 113-79 and 7 CFR Part 1412. The yields provided in this worksheet for the years the covered commodity was planted, 2008 through 2012, will be averaged using the simple average method excluding years of zero planting. Once the simple average yield of the covered commodity is calculated, any current owner on the farm may choose to update the farm's covered commodity CC yield on form CCC-858 during the yield update period.

Report the actual yields planted on the farm for each covered commodity planted for the years 2008 – 2012. The higher of either the actual yield or 75% of the County Average (substitute yield) will be used for each year. If the owner chooses to update the yield, then the farm yield will be 90% of the simple average (excluding the year(s) the commodity was not planted) yield reported on this form.

TOTAL FARM YIELD WORKSHEET

Complete this section ONLY for covered commodities that the owner may wish to report. If a covered commodity was not planted for a particular year, then leave that year blank. Enter the source of the data used to support the yield in Item 6C. Rec Type: 1 for "RMA data", 2 for "production sold/commercial storage", 3 for "on-farm storage", 4 for "livestock feed records", 5 for "FSA loan record", 6 for "FSA NAP record", or 7 for "other". Please enter the other record type in the remarks section on the form. This is ONLY a worksheet. It is NOT the yield update. This form may be used by any current owner of the farm if the current owner decides to update a yield using CCC-858 during the yield update period.
