

This 109 acres in Pike County, MS is 2 miles from Interstate-55 and borders Percy Quin State Park on 2 sides. The tract is entirely covered in mature pine and hardwood timber. The wildlife on this tract is phenomenal. With the State Park boundary, it's like a game reserve. There is a ridge running throughout the property that would make a great home site and some live oaks 100s of years old along the entrance. If seclusion, privacy and beauty is what you're looking for, call to schedule to see this tract today.
